Personal Information

I graduated with a Bachelor of Informatics from Jember University with interest and expertise in Frontend Engineering. Experienced in developing responsive and interactive user interface (UI) using JavaScript, React.js, and HTML/CSS. I have experience as an Assistant Mentor at Ruangguru during the Certified Independent Study (SIB) program, where I managed to increase participants' understanding of Front End Engineering materials by 5%. I have high confidence as I am a fast and good learner. I'm able to work in team or independently. I am eager to learn new things to improve my skills and career.

Objective

To fully utilize my skills while making a significant contribution to the success of the company

Ecperiences

Waste Classification - Skripsi   **Okt 2024 - Jan 2025**

Web Developer
→ Interface Design and Development: Building elegant and professional UI/UX using React.
→ Integration of Waste Detection System: Connecting the website with the waste classification system to display real-time detection results.
→ Attractive Information Presentation: Designing data displays that are informative and easy to understand by users.
→ Interactive Animation Development: Creating animations that enhance user experience and provide a dynamic element to the website.
→ Simple Backend Development: Build a backend to handle requests from the frontend and manage the waste classification result data.
→ Frontend and Backend Integration: Connecting React with the backend to ensure smooth data communication.
→ API Management: Creating a simple endpoint to receive and send waste classification data.

UKM Kerohanian Katolik – Universitas Jember   **Jan 2023 - Des 2023**

Ketua, Unit Kegiatan Mahasiswa Kerohanian Katolik

→ Led various activities such as retreats, and social activities to strengthen member togetherness.

→ Increase member participation rate by 25% through effective strategies in building an active and inclusive community.

→ Develop interesting and useful programs for members to increase their involvement in the organization.

→ Design and coordinate the implementation of various religious and social activities.

→ Conduct post-activity evaluations to identify aspects that can be improved in the future.

→ Collaborate with various parties to support the sustainability and development of the organization.

→ Ensure every member feels heard and has the opportunity to contribute to the organization.

→ Develop and implement effective communication strategies to increase member engagement.

Ruangguru CAMP x Kampus Merdeka Batch 3 - Online   **Aug 2022 - Dec 2022**

Asisten Mentor (GPA : 3.35)
→ Provide additional explanation to participants who have difficulty in understanding the concept.
→ Explained the basics of JavaScript such as variables, functions, arrays, and objects.
→ Guide participants in understanding advanced concepts such as asynchronous programming (Promises, Async/Await) and DOM manipulation.
→ Helped participants understand the concept of fetch API and the use of Axios to retrieve data from the server.
→ Helped participants solve coding challenges and debugging errors in their projects.
→ Delivered the material clearly and effectively to participants with various backgrounds.
→ Practiced how to explain technical concepts with simple analogies for easier understanding.

Education

2020 – 2025 University of Jember, Jember, Informatics (GPA : 3.55)

2022 Ruangguru CAMP x Kampus Merdeka Batch 3, Front-End Engineering (GPA : 3.35)

Computer Skills

Microsoft Word, Exel, Powerpoint, Canva

Programming : Python, HTML, CSS, Rest API, Git
